

Treasurer

Real Pothier, RD

Professional Bio:

Manager of Patient Services at Fletcher Allen serving over 700 patient meals a day. Acts as one of the preceptors for the UVM MSD students doing their 7-week Food Service management rotation.

Position Description:

The treasurer is the chief financial officer of VAND; issues the call for all regular and special finance committee meetings; formulates and audits the financial records of VAND; assist the President & President-Elect in formulating the annual budget for the following year; and reports the financial status of VAND to the Board of Director and the membership.

How I have benefitted from volunteering with VAND:

In my present responsibilities in food service management and as preceptor (for the food service management rotation) for the MSD students at UVM, it is challenging for me to keep abreast of current nutrition issues facing the public and the profession. As treasurer, I feel that I can contribute to VAND. Interacting with other board members has proven to be most valuable, gaining understanding what we are facing today.
